PROFILE

I am a skilled full-stack developer with expertise in front-end and back-end technologies like HTML, CSS, JavaScript, React, Node.js, and Python. I build scalable, user-friendly applications and thrive in solving complex challenges to deliver impactful solutions.

WORK EXPERIENCE

1. Neural Transformers.Ai, Remote

AUG 2024 - SEP 2024

AI & ML and Web Application Development Intern

- Completed a 30-day internship focused on AI & ML and web application development.
- Gained hands-on experience in designing and implementing AI models and developing scalable web applications.
- Collaborated on innovative projects, enhancing technical and problem-solving skills

2. Corizo.in

FEB 2025 - APR 2025

Web development Intern

- Completed a 90 - days internship focused on Web Development and web application development.
- Collaborated on Responsive projects, enhancing technical and problem-solving skills.
- Designed and developed responsive web applications using HTML,CSS and JavaScript(React.js,Node.js).

PROJECTS

1. CRUD APPLICATION

This CRUD application allows users to Create, Read, Update, and Delete data using HTML for structure, CSS for styling, and JavaScript for functionality, providing a dynamic and interactive web experience.

2. E-Commerce Website

An e-commerce website using HTML, CSS, and JavaScript allows users to browse products, add items to a cart, view details, and interact dynamically, creating a user-friendly online shopping experience.

3. Real-time Code Collaboration

Real-time code collaboration with multimedia and AI enables multiple users to edit code together instantly, share visuals or audio, and get intelligent assistance or suggestions from AI tools.
